

Good morning, my name is Samfree Sarante. I just want to comment on all of the flack that "on-air" personalities, such as Howard Stern, have been under.

Before all of this indecency "bull," I was able to listen to any radio broadcast, within my county's range, to which I wanted to listen. However, due to the FCC's supposed (and BIASED) "indecency crack-down," my and many others' listening pleasures have been interrupted!

I am asking as an American, whom was once able to make his own choices about was right or wrong, "Please let us, the people, make our own decisions as to what is correct!"

I believe in my God, which does not necessarily have to be your (whomever is a reader of this note) "God." However, I do believe that we can agree on one thing, and that is Pro-Choice! Just as the gay community is arguing for its rights, Americans, as a whole (not seperate religious sects), should have our own "FREEDOM TO CHOOSE!"

On that note, thank you for reading (if you even do read) my thoughts! If a person does not like what he/she hears or sees, that person has the "CHOICE" to tune into a different radio station, or watch a different channel, respectively.

Regards,
Samfree Sarante
